

► **Xora GPS TimeTrack gives businesses the ability to:**

Manage costs

Accurate up-to-the-minute reporting of where your employees are

Provide better service

Track employees on job sites, resolve billing disputes, confirm services delivered

Automate payroll

Download detailed reports of accurate employee time and hours on the job for import into any payroll program

Increase productivity

Fit more jobs into a single day. Easier dispatching and faster data entry with optional tools such as an add-on barcode scanner

Xora GPS TimeTrack – an easy, efficient and affordable way to track employee time, jobs, and location in real-time, through GPS-enabled Nextel® mobile phones.

► **Use your GPS-enabled Nextel® phone and Xora GPS TimeTrack to:**

Capture start, stop and break times for shifts, jobs and work orders using a simple interface

You will need:

- Nextel i58sr, i88s or i730 phone
- Nextel Total Connect service plan
- PC with an Internet connection

Monitor user location and speed through any web browser and download timesheet and job reports

Dispatch new jobs to employees in the field and send wireless alerts
